

THEOPHILUS KOLAWOLE

Software Developer & Backend Development Lead

Zone 25, Agbede, Tanke, Ilorin Kwara State

(234) 8034159526 | theophiluskolawole19@gmail.com | <https://theokolawole.vercel.app>

PROFESSIONAL PROFILE

Results-driven full-stack software engineer and mobile application developer passionate about building scalable, impactful digital products. Proficient across modern front-end frameworks and complex back-end architectures, with specialized expertise in optimizing database performance, managing server deployments, and designing secure RESTful APIs. Proven track record of leading cross-functional teams from conceptual architecture through to deployment, ensuring robust security and intuitive user experiences.

CORE SKILLS

Backend & Server: Node.js, Express.js, PHP, REST APIs

Frontend & Mobile: React, Next.js, React Native, TypeScript, HTML5, CSS3, Tailwind CSS, NativeWind

Databases: MySQL, MongoDB

Tools & Methods: Git/GitHub, Authentication & Security, Agile Development, Cross-Platform Navigation Systems

EXPERIENCE

McGeorge Consulting

April 2026 – Present

Backend Development Lead

- Lead backend architecture and server deployment strategies, configuring backend environments and resolving complex application build configurations.
- Design and implement scalable database schemas (MySQL, MongoDB) and secure REST API endpoints for seamless front-end and mobile integrations.
- Oversee critical system integrations, including third-party payment gateways, ensuring high reliability and data integrity.
- Establish technical workflows, draft project foundation architecture, and guide the development team through best practices in modern backend engineering.

Herald Web, Minna, Niger State

January 2021 – January 2026

Software Developer

- Led the development and launch of the company's primary website, prioritizing scalability, system speed, and fully responsive design.
- Collaborated alongside cross-functional teams to streamline new user onboarding, significantly contributing to smooth platform adoption.
- Executed ongoing system maintenance and feature deployments to consistently enhance platform reliability and overall usability.

- Engineered and implemented robust security protocols to safeguard user data and maintain complete site integrity.
- Actively monitored and optimized front-end and back-end performance, successfully reducing page load times and driving increased user engagement.

PROJECTS

Lookaxa

<https://lookaxa.otbvalley.com.ng/>

Multi-tenant E-commerce Mobile Application

- Engineered a seamless multi-tenant marketplace platform, enabling isolated, customizable storefronts for diverse vendors within a unified mobile application ecosystem.
- Developed dynamic product discovery and personalized curation features, optimizing the user experience to ensure confident and secure shopping transactions.

Teyweb Stores (In Development)

<https://teyweb.com>

E-commerce SaaS Platform

- Architected a SaaS platform enabling business owners to instantly provision and manage customizable e-commerce websites.
- Developed the full-stack infrastructure utilizing React, Next.js, Node.js, Express, MySQL, and MongoDB.
- Integrated Flutterwave for secure vendor payment processing and implemented complex features including subdomain support, theme customization, and robust user authentication.

Herald Web Platform

<https://hweb.com.ng>

School Website Generator

- Engineered a web-generation platform empowering Nigerian school administrators to instantly deploy fully functional, modern school websites.
- Delivered customized user interface designs alongside integrated student and teacher management tools and communication features.

EDUCATION

Kwara State University, Malete

August 2018 – October 2022

B.Sc. Computer Science

- Built a strong foundation in programming, algorithms, data structures, software engineering principles, and database management.
- Designed and deployed multiple academic projects focused on web development and full-stack applications.

CERTIFICATES & AWARDS

- Front End Development Libraries – freeCodeCamp
- Responsive Web Design – freeCodeCamp
- JavaScript Algorithms and Data Structures – freeCodeCamp
